

MT-1036 Fiber Optic 6 core Mini Splicing Tray

Quick Details:

1. Name: 6 core mini splicing tray
2. Material: virgin PP
3. Dimension: 95x85x12mm (with cover)
4. Net weight: 30g/pcs
5. Mounting hole spacing: 50mm
6. Color: white or grey
7. Certification: ISO9001

Description:

The Fiber Optic Splice Tray is a device for the connection of fiber optic cables, including the introduction of fiber optic splice trays and welding. For fiber splicing, the cover can be flipped, the disc can be superimposed, expand capacity, install, extremely easy to use. It is an important part of the cable splice closure, fiber optic terminal box, fiber distribution boxes, cable junction boxes and other equipment.

Specifications:

Material	PP
Sealing performance	Remain unchanged for 72 hours on pressure 70kpa
Ambient temperature	-40°C+55°C
Atmospheric pressure environment	70kpa-106kpa
Tensile strength	>1000N
Compressive strength	withstand 2000N/10cm ² in 1min
Max volum	6 core per pcs
