

MT-2309-50 50 Pair Outdoor Type Distribution Box

Details:

1. Name: 50 Pair Outdoor Type Distribution Box
2. Item No: MT-2309-50
3. Plastic Material: glass fiber reinforced polycarbonate (Flame retardant)
4. Frame material: 304 Stainless steel
5. Dimension: 195x195x85mm
6. Capacity: 50 pair
7. Type: For 10 pair connection module
8. Color: Grey
9. Weight: 675g (only box)
10. Package: 1pcs/box 20pcs/carton GW:13.2kg 45*45*50cm
11. Certificate: ISO9001

Application:

The distribution block is a part of connection systems. It includes 5 pcs 10 pair connection module, switching, high band modules, quick connect module, 25pair splicing module, 10pair STG module, MDF, STB module, Subscriber terminal block, back-mount frames, protection systems and other related accessories.

Small capacity for copper wire connection. It is convenient for the application mounting to walls, wood, metal or concrete poled, for networking building. It is offered under standard TIA/EIA568A/B, CE, RoHS, and ISO certificated .A widely used metal distribution box with low voltage .There is earth wire inside for protection.

It offers easy access for terminations, there is standard DIN rail for mounting the krone profile module blocks. Simple hand tools and minimum skills required for installation. Lid snaps in open position for easy access during installation. No wire stripping required. Lid may be locked to reduce the possibility of unauthorized entry. Rubber grommets at all drop wire entry and exit ports for protecting the wire from damage. All wire contacts are internal and environmentally sealed.

Applications:

For mounting to walls, wood, metal or concrete poles
