

MT-8909 Cable Stripper

Quick Details:

1. Model Number: MT-8909
2. Type: Optical cable stripper
3. Place of Origin: Zhejiang, China
4. Brand Name: Melontel
5. Use: FTTX FTTH
6. Network: 4g, 3G, 5G, FTTH, FTTx
7. Product Name: Round Cable Stripper/Slitter
8. Color: Gray, blue,black
9. Single package size: 9X3X4 cm
10. Single gross weight: 0.035 kg
11. Product size: 85mm
12. Working temperature: -40 to 70

Description:

Fiber optic loose tube fiber requires that you use a precision fiber optic stripping tool capable of cutting different buffer tube diameters without nicking the enclosed optical fiber. This stripper has adjustable blades that you can set for any depth to ensure nick-free jacket entry into fiber optic buffer tubes. You can use it for stripping simplex fiber and a variety of fiber optic cable up to 0-7.9mm diameter. This Fiber Optic Stripping tool provides a comfortable and secure grip that helps make the fiber optic stripping process easy and efficient.

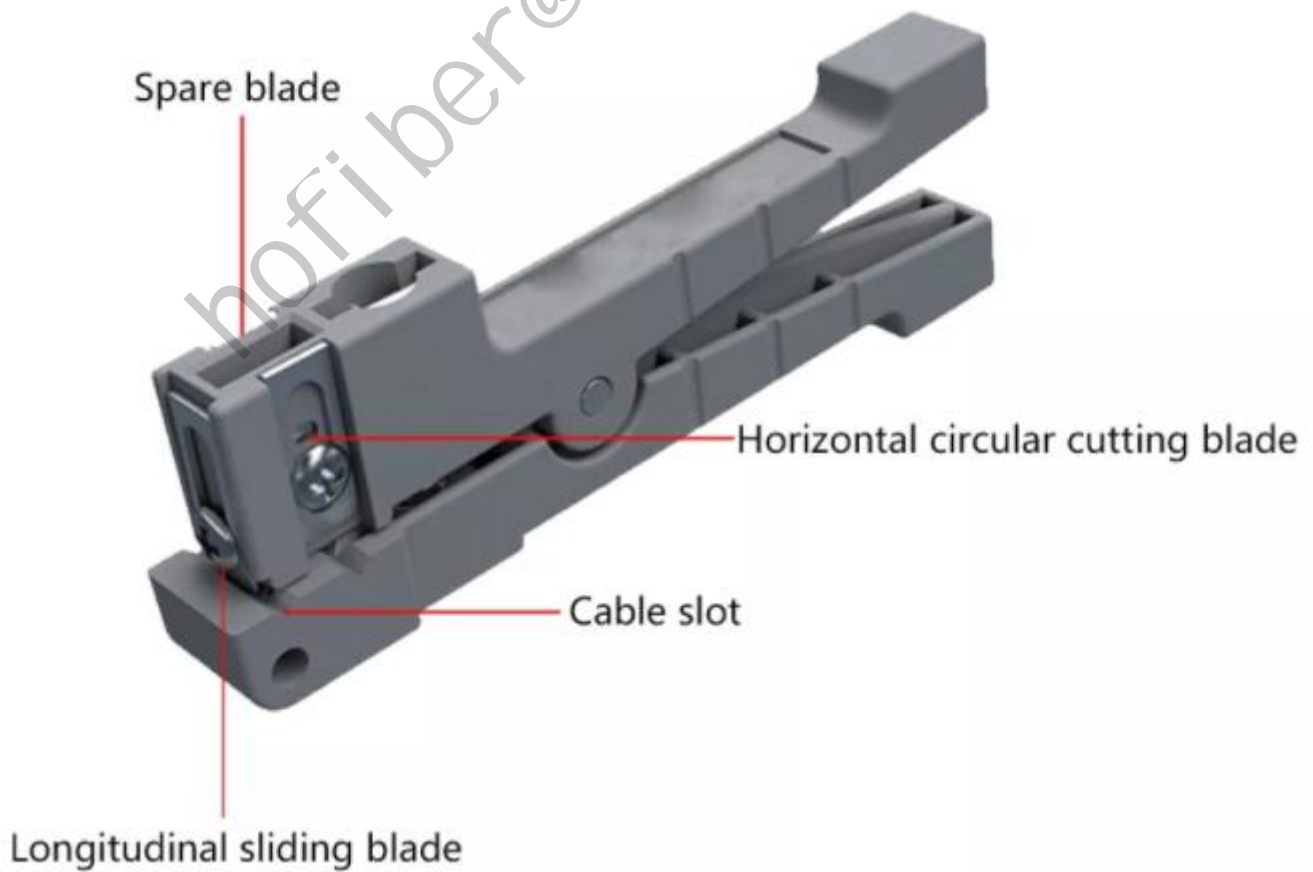

Features:

1. The perfect tool for lateral resection of fiber coaxial cable is also suitable for stripping of 2mm, 3mm indoor cable sheaths.
2. The depth of the blade is adjustable to ensure that the fiber is not damaged.
3. The two straight blades in the horizontal direction are longitudinally cut into a circular blade, which can be cut horizontally or longitudinally.
4. Lightweight, small size and easy operation.
5. Suitable for twisted pair, tight clad cable, CATV cable, CB antenna cable, SO/SJ/SJT and other forms of power cable.

Size:

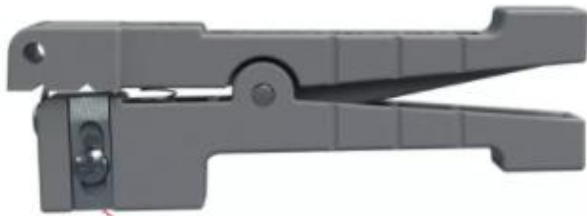

Structure:

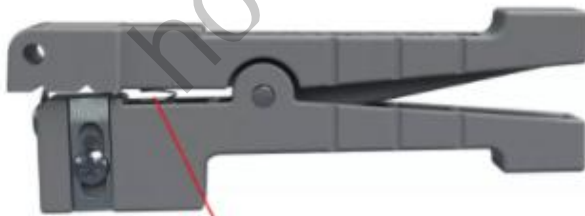

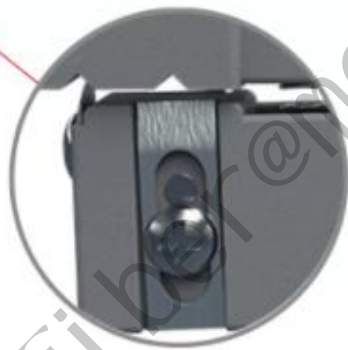

The front part adopts a longitudinal blade, which can slide the optical cable longitudinally, and the cutting depth of the blade can be set freely.

The rebound spring design effectively shrinks the stripper and reduces the volume to protect the blade.

The side adopts double transverse blades, which can cut the optical cable transversely, and the cutting depth of the blade can be set freely.

Application:

4.8~7.9mm loose tube round optical cable

Ribbon cable

CATV coaxial cable

45-162

Stripping 0-3.2mm
Cable Diameter

45-163

Stripping 3.2-5.6mm
Cable Diameter

45-165

Stripping 4.8-7.9mm
Cable Diameter
