12. Packing: 1 pcs /Box

### **Description:**

Fiber optic cable jacket splitter is an efficient and indispensable tool for fiber optic cable termination. It easily slits the PVC cable jacket into two halves before crimping, in both field and plant applications, time is saved and consistency is resulted with this precise and innovative tool.

### **Features:**

1. Used for fiber optic cable termination.
2. Small, light weight design for maximum portability.
3. Simple operation without any adjustments.
4. Provides easy access to fiber.

**Stripping size:**

**Size:**

## Usage:

① Choose appropriate groove and put the cable into the slit

② Close the splitter and hold it firmly with one hand, then pull the cable out with the other hand.

③ Check the cable and there should be two rips on the jacket
