

MT- 8935 Cable Stripper

Quick Details:

1. Grade: Industrial
2. Place of Origin: Zhejiang, China
3. Brand Name: MELONTEL
4. Model Number: MT-8935
5. Product name: Cable Stripper
6. Application: Cable Stripping
7. Color: red/yellow
8. Thickness: 50mm
9. Product Size: 50*185mm
10. Handle material: Plastic
11. Blade material: Stainless Steel
12. Packing: 1 pcs /Blister Card
13. Body Material: CrV/S55C
14. Weight: 0.12kg

Description:

1. Forged and heat-treated stainless steel with a hardness up to 58-62HRC, for sharp cutting
2. Insulated dual-color rubber-coated handle for comfortable grip
3. German VDE certified, pass the insulated 10,000V high voltage test, withstand 1000V working pressure and meet IEC60900 standard
4. Billhook blade with sliding guide block to avoid damage to the inner wires of cables
5. Please check carefully before use to ensure that the insulation layer is not damaged, clean and dry

Feature:

1. Fixed hook blade
2. No damage of the conductor core.
3. blade make of stainless steel
4. With imported TPE plastic handle, through PAHS require, can be used between -40 ± 3 degrees and 70 degrees

The head is made of stainless steel with fine workmanship, which can enhance the hardness and corrosion resistance of the head

The head has sliding guide block, which is not easy to damage the inner core. The cutting edge is heat treated, which makes the cutting sharp, high hardness and smooth

Back protective shell design, can effectively prevent injury caused by improper use

Handle can bring comfortable feel, can prevent slipping

The knife head and handle are precisely fitted, and grasp firmly. It is not easy to fall off during use

The cutter head is designed with convex point, so that the cutter sleeve and the cutter head are firmly attached and not easy to fall off, which is convenient for storage
