

MT-8906 FO103-S Stripper

Quick Details :

1. Name:Cable Stripper
2. Material: Handle is plastic,Blade is metal
3. Color: Yellow and Black
4. Type:FO 103-S type
5. Application: Stripping for fiber optic cable
6. Packing: 1pcs / box
7. GW:79g
8. Length:137 mm
9. Certification: ISO9001

Description:

- 1.For stripping 250 micron buffer coating from 125 micron optical fiber.
- 2.Precision diameter hole & V-opening in blade allow for accurate buffer coating removal.
- 3.Pivot pin, spring and precision handles enhance tool functionality and durability
- 4.Factory set, requires no adjustment.
- 5.Prevents scratching or nicking of optical fiber.
- 6.All cutting surfaces are precision formed, hardened, tempered and ground assuring precise buffer removal.

Feature

1. Precision diameter hole & V-opening in blade allow for accurate buffer coating removal.
2. Stripper is Factory set, requires no adjustment.
3. All cutting surfaces are precision formed, hardened, tempered and ground assuring precise buffer removal.
4. Prevents scratching or nicking of optical fiber.
5. Our vast selection of strippers features from 125um to 880um.
